I've been thinking of doing the same. The 3%ers would be preferable but they aren't doing shit like the PB's are.

If you bring guns into DC, you better have a lot of other armed people with you, and be prepared to use them. There would be no going back to normal after this.

We're the Nazis still using old broom-handle Mausers? I thought the Luger P09 would have been the more common sidearm.

Yeah, nazi airmen's gun. But that right there is an mp40 with mp40 mag pouches. Pepe should be running an m1 carbine.

Its time to remind politicians that the people are the ones who hold the power, not unelected bureaucrats.

Guns are pretty much illegal in DC. So if you bring them, it's time to use them not time for show and tell.

Thanks 17 minute old account, let's just sit down and wait until we all die of old age or until they come for us separately. It's safer that way.
